WORK EXPERIENCE

AI-ASSISTED SOFTWARE DEVELOPER
(JANUARY 2026 – NOW)

I leverage advanced AI coding agents such as Google Antigravity, Claude Code, and OpenAI Codex to plan, develop, and maintain web and mobile applications. I specialize in managing AI-assisted development workflows, breaking down complex projects into structured, manageable tasks while ensuring code quality, architectural consistency, and long-term stability

WEB DEVELOPER (FREELANCER)
(2017 – NOW)

Detail-oriented and creative Web Developer with +7 years of experience in web development, managing websites and complex web, desktop applications. Proficient in a wide range of modern technologies including HTML, CSS, JavaScript, PHP, Python, MYSQL and Flutter flow, also frameworks like CodeIgniter and CMS like WordPress.
Passionate about creating responsive, user-friendly, and visually appealing websites and applications.

IT MANAGER & MARKETING
FORMAGROUP – MILANO
(APRIL 2025 – OCTOBER 2026)

Managed Squadd CRM and automated client acquisition, lead management, and sales workflows. Developed custom internal CRM systems to streamline business operations and improve efficiency. Managed company websites, Google Ads campaigns, and social media marketing content creation. Provided IT support, technical troubleshooting, and staff training on digital tools and internal systems.

IT TUTOR AND HELPDESK
COMUNE DI MODENA – ITALIA
(May 2023 – May 2024)

Under the program of *Servizio Civile Universale* i carried out
Course Preparation & Training: Assisting in the design and development of informatics courses for citizens
Tutor & Support: Guiding and supporting participants during lectures, ensuring they grasp key concepts in digital skills and technology

TECHNICAL SUPPORT AND DOCUMENTATION
BERNIQ AIRWAYS - LIBYA
(June 2022 – November 2022)

Worked in Safety & Security Department providing technical and IT support to multiple departments, including Security & Safety, Training, Ground Handling, and Human Resources. Responsible for maintaining and troubleshooting devices and equipment, as well as handling archiving and documentation of workflows, reports, and official records to ensure smooth operations and compliance with internal processes

TECHNICAL SUPPORT
ALTAIR HANDLING AND AVIATION SERVICES – LIBYA
(January 2021- June 2022)

Worked as part of the IT and Communications Department, providing technical support and facilitating the work of all departments within the company's headquarters and its office at Benina International Airport. Designed and developed an electronic system for printing boarding passes in collaboration with one of the airline partners contracted with the Company, ensuring smooth and efficient passenger handling processes.

DESKTOP APPLICATIONS DEVELOPER
MINISTRY OF EDUCATION – LIBYAN GOVERNMENT
(February 2019/ November 2020)

I designed and implemented the MCQ national exams management system for academic year 2019/2020, I was part of the team of directory of examination (one of the ministry's departments).
